# RoHS Supplier Declaration

**DNP Imagingcomm Europe B.V.**, supplier of Thermal Transfer Ribbons and Dye Sublimation Ribbons, declares that, to its knowledge as to the date of this document, the products are no subject to the requirements of **Directive (EU) 2015/863** amending Annex II to **Directive 2011-65-EU**.

This declaration is based on DNP Imagingcomm Europe B.V.'s understanding of the RoHS Directive and by the following statement given by the Dutch government:

*'The moment a ribbon is mounted into a printer it becomes a part of EEE (Electronical and Electric Equipment) and should comply with RoHS-II. However, the moment the ribbon onto a core is delivered seperately, it is actually meant as a part for EEE, but if it misses any electrical connection and it is driven mechanically, it cannot be qualified as being EEE. The ribbon does not need an electrical current to operate. In this case it is the printer that requires electrical current to operate.'*
